# "Beauties for Your Garden"

Peonies and Irises are without doubt the most satisfactory garden flowers from every standpoint. They are most profuse and gorgeous in wealth of bloom, unquestionably hardy, easy to grow and succeed in almost any garden soil. They are justly popular with experienced gardeners as well as amateurs the world over.

Our list of new modern varieties in both Peonies and Irises is very complete, over 1600 varieties. You will find both the new higher priced novelties for those who want the latest sorts and also the many hundreds of exquisite kinds that are just a few years older that are priced so low as to be available to the most modest purse.

If you are an experienced gardener or only a novice in the growing of these two magnificent species of flowers you will find offered here the very cream of varieties to make your garden more enjoyable.

## PLANTING INSTRUCTIONS

### PEONIES

Plant in good average garden soil. Spade up the ground several times as deep and large as the plant to be planted.

Place the eyes 2 to 2½ inches under the level of the ground. Place a handful of bone meal around each plant, mixing it into the soil.

**Do not plant near trees or shrubbery.** They like plenty of sunshine. Disbud the lateral buds for show flowers.

Cultivate frequently. Cover with straw or other litter the first year to protect from heaving.

### IRIS

Plant in good average garden soil to which add some bone meal and crushed limestone.

Plant the roots 2 to 3 inches under the ground and cover the body of the plant with not over an inch of soil.

Plant 12 to 15 inches apart. Reset every 3 or 4 years.

They like sunshine, but will flower in partial shade.

All Irises, one-year stock, the best to be had.

### Printed Planting Instructions Accompany Every Order

All plants shipped Parcel Post or Express Prepaid, except Tree Peonies, which are F. O. B. Express Collect.

Orders amounting to less than \$1.00, include 10c extra for Parcel Post.

### *Our Guarantee*

All varieties true-to-name. Replacement if not.

Young stock full of strength and vigor. Will grow if planted and cultivated properly.

We advise you to make second choices.

All Peonies are 3-to-5-eye standard divisions. Large 6-to-10-eye plants can be had at double the standard division prices.

All Irises are strong healthy one-year-old rhizomes.

All Poppies are fine healthy plants. We suggest that you follow closely the directions for planting which accompany every order.

All Hemerocallis plants are fine divisions. These plants are very fine for the garden and are very easy to grow.

### THE AMERICAN PEONY SOCIETY

A \$3.00 membership keeps you posted on the doings in the Peony world.

Peony Manual, Parcel Post prepaid, \$1.65. You should own a copy.

Send checks for either of the above to: The American Peony Society, W. F. Christman, Sec.; Northbrook, Ill.

### AMERICAN IRIS SOCIETY

All Iris lovers should belong to this society. The Bulletins are full of interesting articles on the new varieties and other subjects of interest. Membership \$3.00. Send check to

H. R. WATKINS, Sec.,  
821 Washington Loan and Trust Bldg.,  
Washington, D. C.

# Japanese PEONIES

This type of Peony is very graceful in growth and quite different in type of flower. The flowers are single or semi-double with wide flaring petals of exquisite coloring and texture. The centers are usually a more or less compact mass of tiny petals or petaloids surrounding the stamens and usually of a color contrasting with the main petal color. Very charming color effects are found among them.

*Akashigata*

	Each
<b>Akalu.</b> (Des.) Large carmine-red mid-season .....	\$ 1.00

Peony Bargains on Pages 30 and 31.

*Le Jour*

# Single PEONIES

Somewhat like the Japanese Peony but having no central petaloids, the stamens being exposed to form the contrast with the guard or main petals. As a class they are very graceful plants, holding their blooms well off the ground without support and offering very handsome subjects for bouquets as well as the garden.

*Tenuifolia Flora Plena*

# Tree Peonies (Paeonia Arborea)

A very different type of plant from the herbaceous Peonies which die to the ground each year. Tree Peonies form a permanent woody shrub, growing larger each year and ultimately making a good big shrub which will be covered each year with glorious large blooms of rich and unusual coloring. There are many colors in this type which are not found in any of the other types.

No garden should be without one or two Tree Peonies. They make fine specimen plants as well as mass effect. The following prices are for strong 4- and 5-year-old shrubs that have already bloomed. The size varies according to the variety, ranging in height from 12 to 24 inches, with several stems. We always send out the finest plants available in each particular variety.

Cultural directions accompany every shipment. Each

**Alice Harding.** (Lemoine, 1935.) This striking novelty carries large full fragrant flowers of the purest yellow, exactly the color of Rose Souv. de Claudius Pernet. It was greatly admired by everyone that saw it, and especially by the well-known plant lover after whom it was named. It produces the purest yellow bloom of any yet introduced .....\$50.00

**Argosy.** (Saunders, 1928.) The flowers are fairly large, semi-double, clear bright sulphur-yellow, deep purple-red at the base, and stand upright on stout stems. Very vigorous grower with handsome foliage. Fragrant ..... 15.00

**Banksi.** (Europe.) Large; double; flesh-pink. Good bloomer and very hardy. We have a very large stock of this variety and are in a position to select extra fine shrubs ..... 4.00

**Baronne d'Ales.** (Europe.) Large; full; vivid salmony pink, dark center .....\$ 5.00

**Beikoku.** (America.) (Jap.) Large; semi-double; beautiful soft flesh-pink. Blooms very profusely on upright stems ..... 5.00

**Comtesse de Crawford.** (Europe.) Large; carmine rose, deeper center ..... 5.00

**Comtesse de Tudor.** (Europe.) Very large; double; lovely bright salmon ..... 5.00

**Fragrans Maxima Plena.** (Europe.) Fine double; salmon-flesh. Unusual color ..... 5.00

**Fuji-no-Mori.** (The Woods of Mt. Fuji.) (Jap.) Large; semi-double; beautiful orchid. Quickly attaining a height of 3 feet ..... 5.00

**Jeanne d'Arc.** (Europe.) Large; double; imbricated salmon-colored flowers. Free blooming. 5.00

**La Lorraine.** (Lemoine, 1913.) Large, very double flowers of good substance and delightful fragrance. Color a soft sulphur-yellow, becoming lighter and purer when fully opened. Good grower and bloomer ..... 15.00

# IRISES

Iris in some form are native to practically all parts of the world. They vary greatly in size, height and coloring in the various countries. As a class they are of extremely easy culture and not particular as to soil. No flowering plant gives so much in beauty for so little cost and attention.

The following list of Tall Bearded Iris offers the newer kinds which, because scarce as yet, are relatively more expensive than the older varieties. Because our list is so extensive we can give only brief descriptions.

Get some of these newer kinds for your garden. You will revel in their beauty and your friends will enjoy kinds they have never seen.

## Tall Bearded Varieties

	Each

# Hemerocallis ~ DAY LILIES

The old-fashioned Day Lily has undergone a transformation in the hands of hybridists in the past few years. Now we have great variety in color, time of bloom, May to September, and new shapes from which to choose. All are hardy and do well in sun or partial shade. If you do not have these newer Day Lilies you are missing a rare beauty in your garden. Beautiful for cut flowers as well as garden.

# *Oriental Poppies*

Huge flaming scarlet, crimson and rich maroon flowers, some with black blotches, also some new colors: pink, salmon and old rose, have revived interest in the old Oriental Poppy. These newer kinds are really marvelous; you must have some of these newer Oriental beauties which bloom between the Iris and Peony seasons. Shipments after August 1st.
